WE have tickled the people with wonderful bargains, and they have laughed with pockets full of money. This naturally brings the question, what is a bargain? Tt means here an advantageous purchase, merchandise you either now, or soon will need, greatly underpriced.

In this particular instance with us, it means hundreds of items sold one fourth, one third, and one half regular value, with the sole purpose of cleaning out our stock. A good healthy tree needs pruning; so does a good healthy growing store. This is what we do twice a year, only we use a big axe and chop as well as prune.

The throngs we have necessitatea new set of rules governing these Semi-Annual Special Sales that are very different from our regular every day policy.

Ordinarily we make exchanges easy, we make it easy for our customers to get their money back when ever it is wanted, but we are compelled to do different during these sales, we have to adopt very strict rules. and a rule here applies to every body alike. No favoriteism shown here. We often want to break these rules, but we can't. For instance, a lady was in mourning and her husband bought her a red sweater, when she brought it back it really looked hard to us not to exchange it for a white one, but we had said nothing exchanged except shoes, so we couldn't do it. Most people already known that we mean what we say.

Terms Nothing on Approval No Phone Orders Nothing Exchanged Except Shoes.

Please do not ask us to break these They are positive. terms.
